To Whom It May Concern:

Re: Resistant Lining Ltd.

We have utilized Resistant Lining on several occasions over the past year. I am impressed with their safety practices and their attention to safety detail.

Resistant Lining Ltd. conducts Field Level Hazard Assessments, Critical Tasks and Job Hazard Reports as well as Work Site Safety Inspections, and daily Tailgate Meetings. I attended some of those meetings and couldn't believe how thorough the tailgate meetings were. I haven't seen anyone do such a good job when it comes to safety for many years.

When Resistant Lining is on site I know I can trust them when it comes to safety as they have it well covered.

I am confident in recommending Richard and the rest of the team at Resistant Lining Ltd. for big or small jobs. Their attention to detail to all areas of the job is outstanding. They are also easy to get along with and they do what they say they will do.

Yours truly,

Len Larson
