

# **BAYTEX**

ENERGY LTD.

To Whom It May Concern:

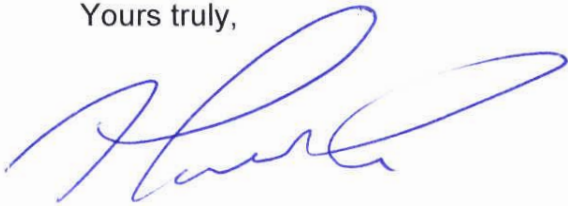

It's been over ten years that I have known and worked with Richard Lamoureux and the Resistant Lining team. Richard Lamoureux has the highest quality of workmanship. His attention to detail and quality is number one.

Resistant Lining Ltd.'s coating application has exceeded our expectations. I have gone in to tanks and vessels eight years after they were coated with Resistant Lining and have had to do only mechanical minor repairs.

Resistant Lining Ltd. Is reliable, being on the job when they say they will and having the job done on time.

Whenever we require sandblasting and coating, our first choice is Resistant.

Yours truly,

Henry Goeckel  
Field Superintendant  
North Division  
Baytex Energy Ltd.
