To Whom It May Concern:

I have known Richard Lamoureux and Resistant Lining for 7 years during which time they have performed multiple sand blasting and coating jobs for me.

With respect to Resistant Lining Ltd., their knowledge and expertise when it comes to sandblasting and coating is unsurpassed. Their workmanship is excellent, with critical attention to every detail, and very high quality standards.

Resistant Lining performs well in all areas. From the quoting process to getting the job done, they are second to none. Their quotes are fair and reasonable. They arrive at the jobsite on time and have the job done when promised. They pay particular attention to safety and they keep the site clean.

Sincerely,
